Dear Colleague:

If you have students, friends, or colleagues who want to put their math, science, engineering or technology knowledge to work for the young people who need them most, the Woodrow Wilson Teaching Fellowship Program offers an unparalleled opportunity.

For top applicants, this prestigious fellowship offers a $30,000 stipend toward completion of a one-year master's degree program at a Woodrow Wilson partner institution in Georgia, Indiana, or New Jersey. Fellows undergo a year-long clinical experience in a high-need school, along with rigorous subject matter courses, then commit to teach for three years in urban or rural secondary schools, with mentoring throughout the entire process.

The most successful Woodrow Wilson Teaching Fellows come to us through a recommendation from a trusted source—a professor or colleague like you. Any qualified, interested student—or for that matter any potential career-changer you may know—can now apply online for the 2015 Woodrow Wilson Teaching Fellowship. For more information, please visit our website.

We look forward to hearing from any candidates you can refer to us.

All best,
Jose Ochoa  
Director, Woodrow Wilson Teaching Fellowships
